*Just Energy Exchange Corp.*

On July 1, 2009, Just Energy Exchange Corp., a wholly owned subsidiary of Just Energy, acquired all of the issued and outstanding common shares ("Universal Shares") of Universal Energy Group Ltd. ("Universal") pursuant to an arrangement (the "Arrangement") under section 192 of the *Canada Business Corporations Act* and subsequently amalgamated with Universal to form the Corporation. Under the Arrangement, Universal shareholders received 0.58 of an Exchangeable Share for each Universal Share held. Each Exchangeable Share is exchangeable for a Trust Unit of Just Energy on a one-for-one basis at any time at the option of the holder.

Just Energy's business involves the sale of natural gas and/or electricity to residential and commercial customers under long-term fixed-price and price-protected contracts through its subsidiaries. By fixing the price of natural gas or electricity under its fixed-price or price-protected program contracts for a period of up to five years, Just Energy's customers offset their exposure to changes in the price of these essential commodities. Just Energy, which commenced business in 1997, derives its margin or gross profit from the difference between the fixed price at which it is able to sell the commodities to its

customers and the fixed price at which it purchases the associated volumes from its suppliers.

Just Energy also offers “green” products through its Green Energy Option (GEO) program. The electricity GEO product offers the customer the option of having all or a portion of his or her electricity sourced from renewable green sources such as wind, run of the river hydro or biomass. The gas GEO product offers carbon offset credits which will allow the customer to reduce or eliminate the carbon footprint for their home or business. Management believes that these products will not only add to profits, but also increase sales receptivity and improve renewal rates.

In addition, through National Home Services, Just Energy sells and rents high efficiency and tankless waterheaters and produces and sells wheat-based ethanol through its subsidiary Terra Grain Fuels.
